Nov 7<sup>th</sup> 1920 <sup>from</sup> Greampost- 16

Mr Roy Cushman writes me that on above date he found forty (40) species of wild flowers in bloom.

Nov 14. 1920 W. Hempstead

Temp down to 25° past 2 nights.  
Fls all withered except - Daycote  
On 11-12, which is fresh everywhere.  
Parnassia vulgaris (7 new)

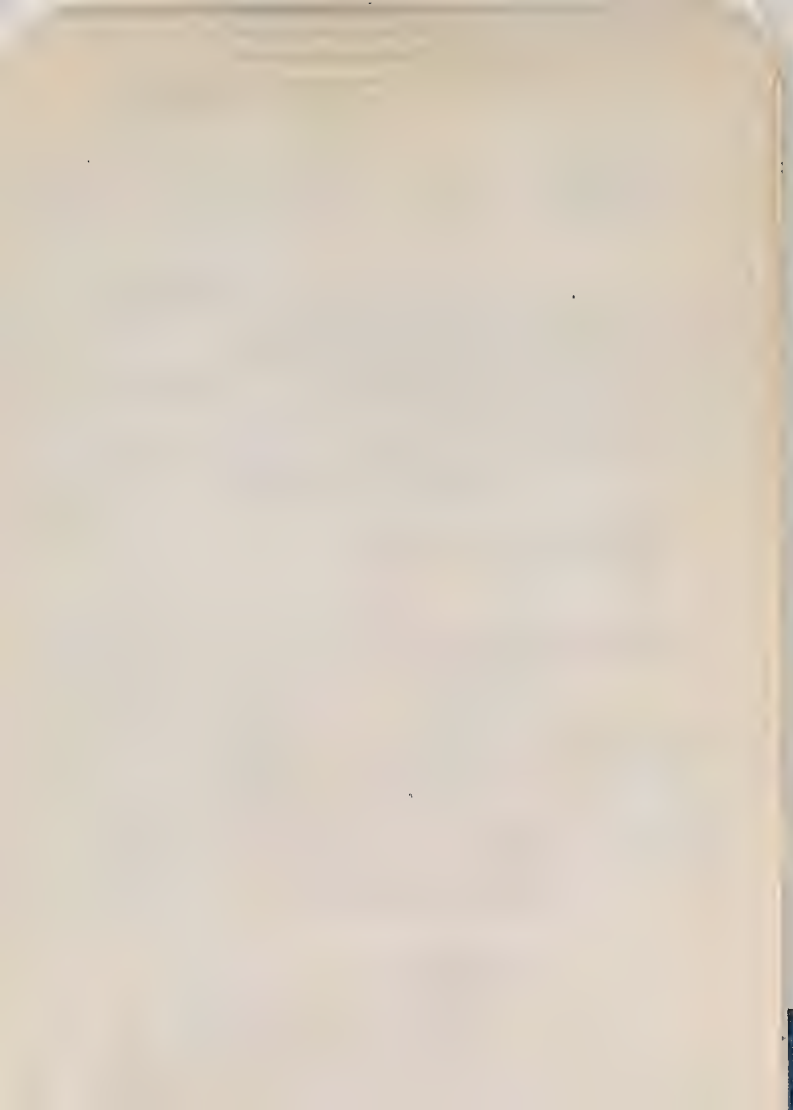

Calluna. Fresh & green, in mass.

Nov 15 First snow - flowers

Dec 4. Temp 55° all day.

P. 2. White Birch Camp. Road, Madeline  
Termination on. Dandelion, L. vulgaris, obscurus  
new. Parnassia 1 Dandelion fresh  
fresh flowers

Dec 5 A.M. Temp 52° snow.

DEC 18. 1920 Hempstead Reservoir. 17

This A.M. walk around Hempstead  
Reservoir.

DEC 24. 1920 - Platteville Woods A.M.

Wood. Donald. Then leaves of map.  
Blackberry (high bush) also -

*Empetrum maculatum*

*Pyrola elliptica* & *P. americana*.

*Hedera helix*

*Urtica dioica*

*Samolus* - forest & vigorous.

*Erythronium obtusum*

" *capitatum*

*Desmodium illinoense* Single plant found

*Polypodium acrostichoides*. Several colonies.

*Tillandsia canaliculata*. Dried plants.

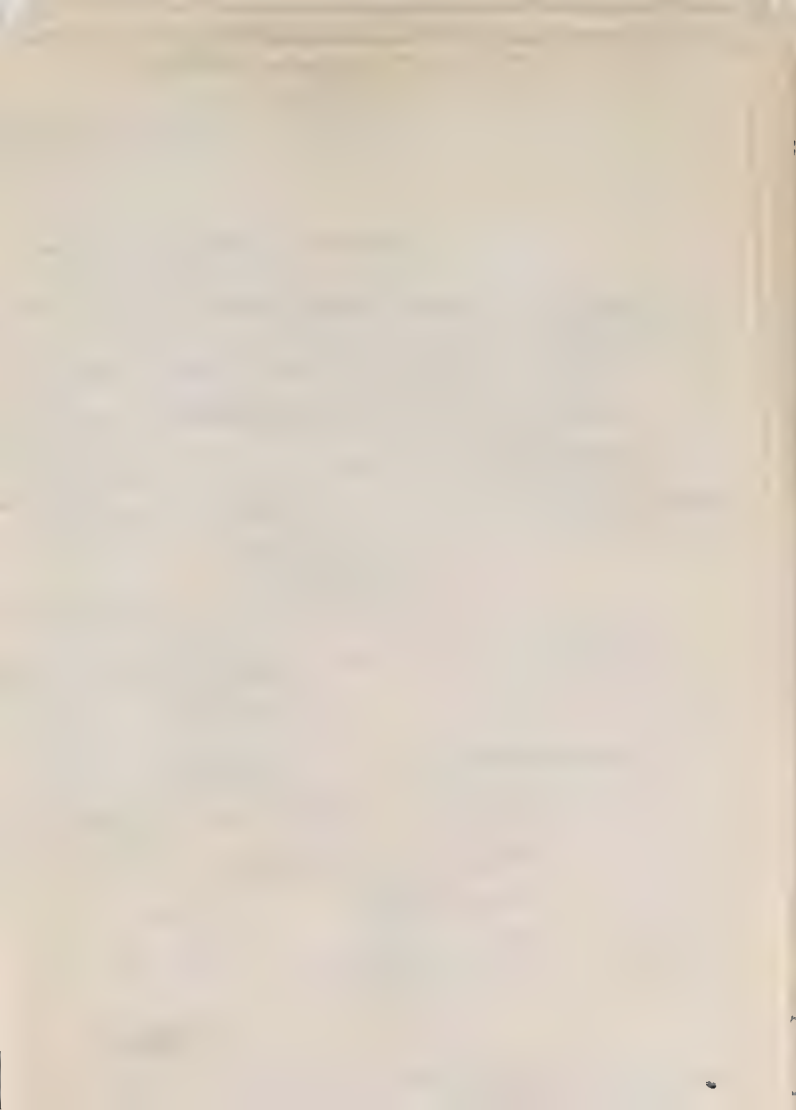

*Urtica dioica* - Single plant. Dried plant.

Winter buds *Viburnum acerifolium* Single plant.

No sign of bird or animal.

DEC 25

*Agrostis Lymanii* B.V.M.

Jan 2. 1921

W. Hempstead

18

Beautiful day Temp. 53°

2 Violet-bearing Catapillars in Garden  
Dandelions in flower.

But. 1, mosquito in living-room

Jan 5. Large beetle hard shell 1 inch  
long black - Elliptical on road from  
Garden City. Thunderstorm to day.

Jan 9 A.M. walked around Hempstead Red

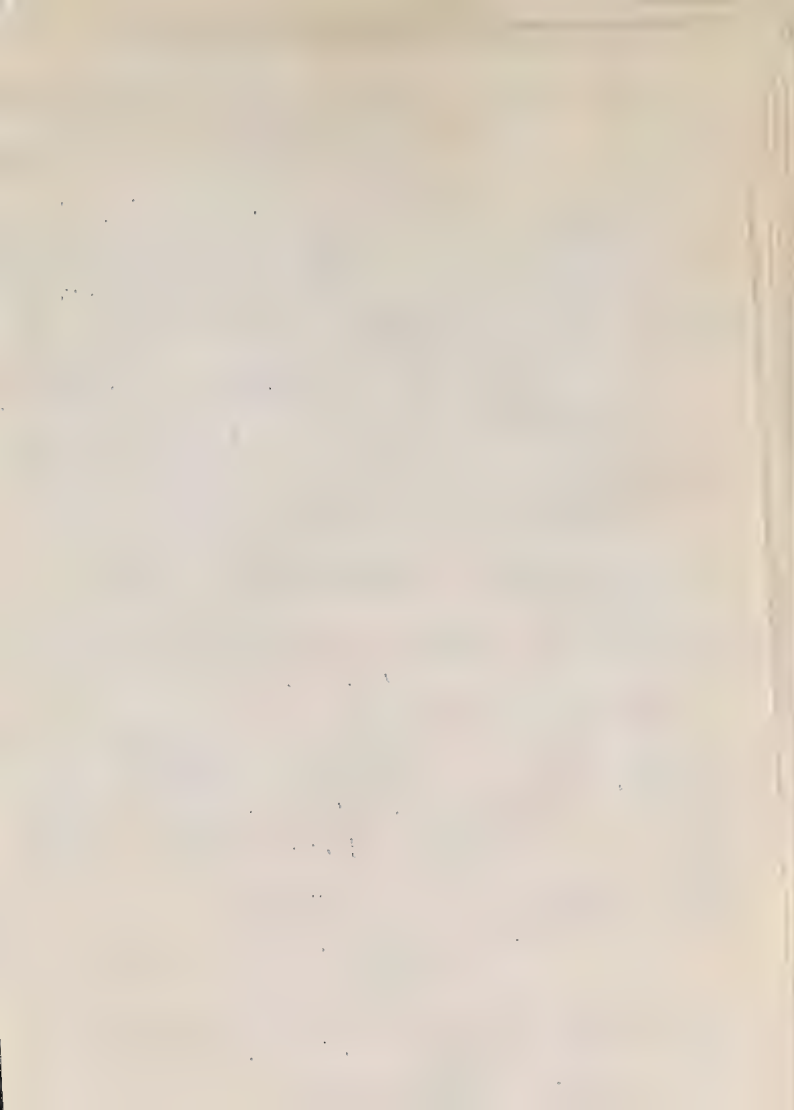

Red & Purple Chokeberris. Hays catkins  
with buds Choke Neopis, Yucca

Galin. Xanthox. Eubolus, Some of last-  
year's green leaves still persisting.

Parasitic Canadensis. P. of two.

Scirpus affinis. Subiculum, all withered  
Junco Canadensis only, rust, but very  
abundant except 1 plant of J. effusus

Black & white groundcover

Jan 16. 1921 A.M. Meadowbrook. 19

Walk by Front St. Returning by Fulton St.  
Beautiful Clear still morning. Temp 28°

R. Stream Front St.

*Lycopodium complanatum*

*Bolophium obliquum*

" *dissiduum*.

Bark upright, Succulent; Reddish brown.

Meadowbrook Swamp

*Juncus Canadensis*.

Early Vines on margin of Stream  
Graceful - beautiful.

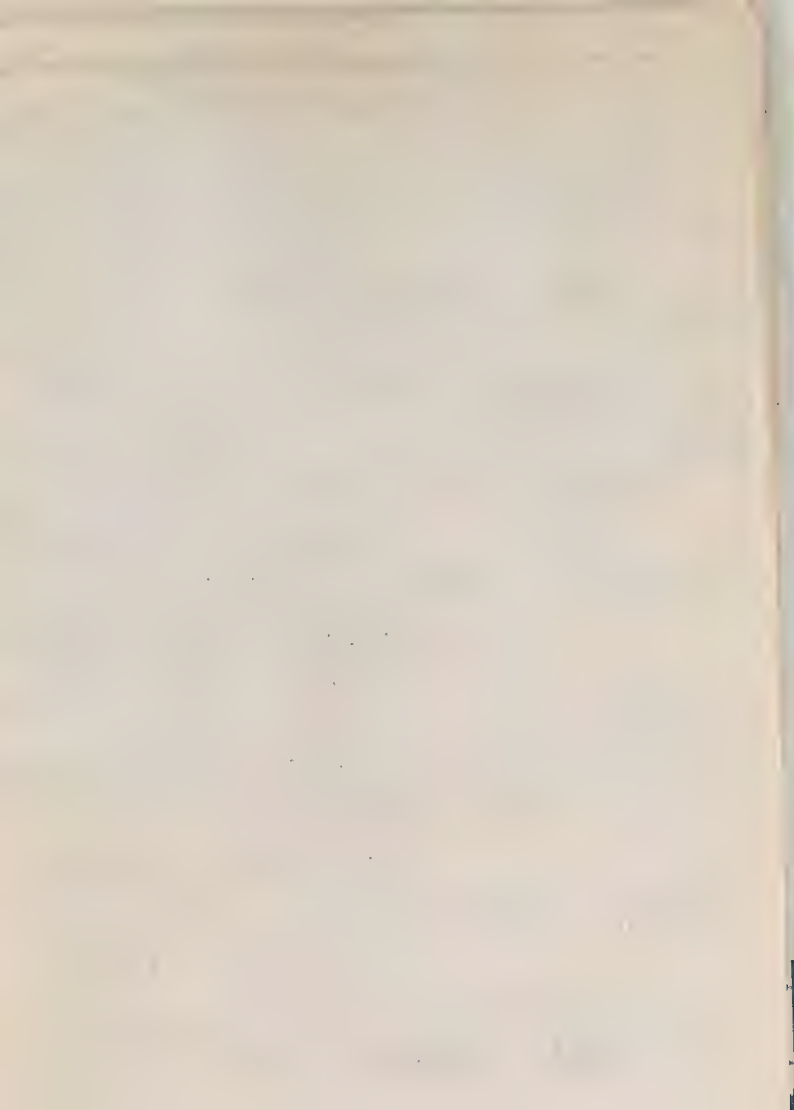

The plants grasses fine effect -  
*Andropogon* or *Schizachyrium* or both.

Dark form of *Spiraea latifolia* & 5  
*tenerrima*, *Hypoxis Canadensis*, *Sorbus*

*Gentiana* *Helianthus angustifolius* in  
swamp.

*Lycopodium complanatum* or *obliquum*

Horizontal stem thick lush green, Succulent -  
Stems upright & prostrate.

Jan 22. 1929

W. Hempstead.

20

A Calla butterfly small white in  
the living room. Must have hatched  
from some plants I brought from  
the woods.

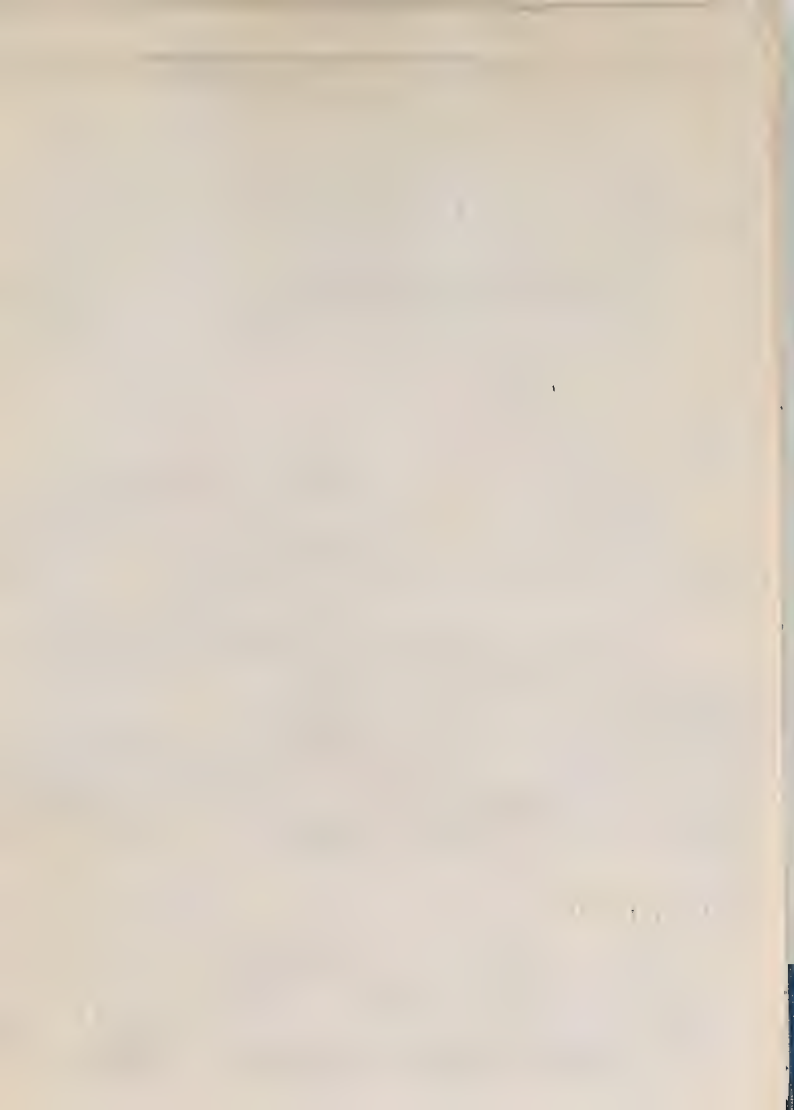

Jan 23. Temp 49° Clear day  
like April. Fresh leaves of  
dandelion. Also in garden & Cerastium  
Vulgaris. A. W. Went to  
Empire Reservoir with Eric

Jan 29. AM Around Pine pond by wheel  
*Bolus chum ophogon*

P.M. W. Hempstead Swamp

*Solanum elaeagnifolium*

Vine in  
fruit

Feb 6. 1924. Hempstead Reservoir 31

Beautiful Clear morning. Temp 42°  
Walked quite around Hempstead Res.  
Frozen over except at E. end.  
Keeper told me a man walked across  
on the ice this morning. 21- seems  
quite thick. This seems remarkable  
considering the winter so far  
beautiful mild weather but we  
had a much thicker quite cold.

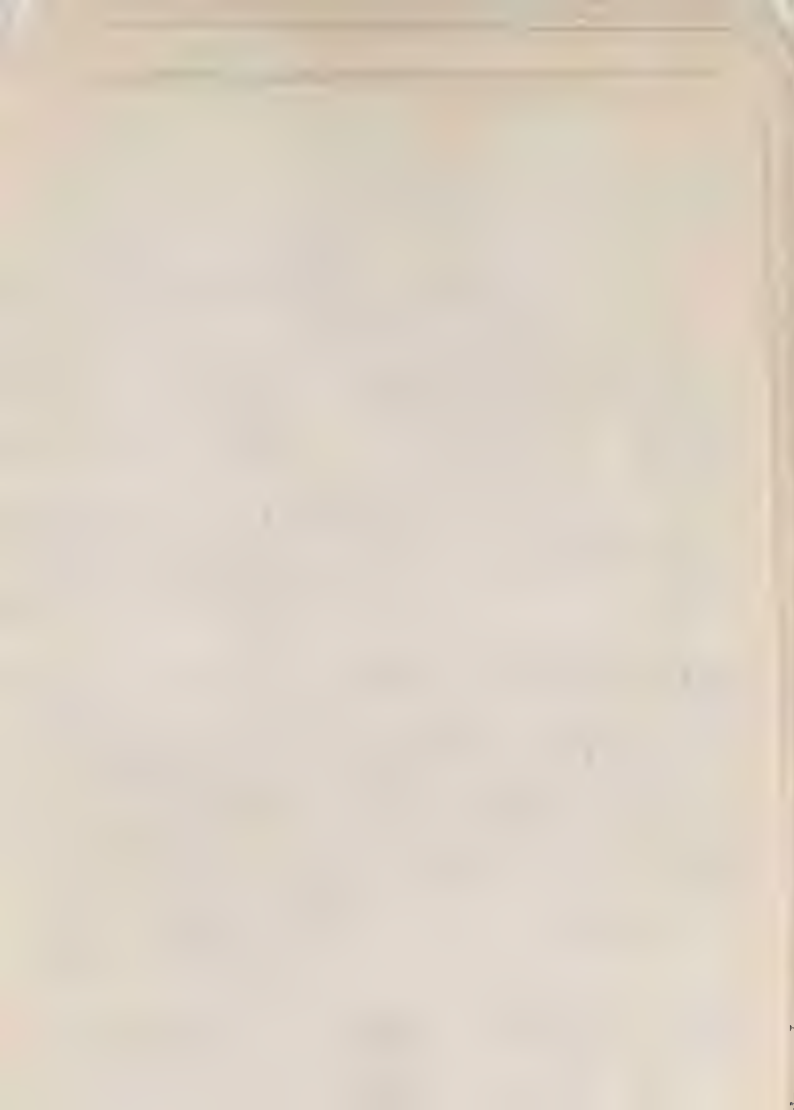

Feb 12 P.M.

Walked quite around Hempstead  
Reservoir. Beautiful day

Feb 13 A.M. Walked to Shadow  
Lake & back. Fine morning.

Feb 16 - Temp 51° Clear

" 17 " 54° "

Feb 19, 1921

Albion - Pine Stream 22

Sunny - Warm A.M. Temp 22°

Clear &amp; fine by stream &amp; woods.

Pussy Willow buds breaking; Silk producing  
*Kalmia angustifolia* one patch 5' of thick  
 leaves larger & more oval than any  
 I have yet seen. Glaucous on under side  
*Juncus Canadensis*. This is the only  
 Rush I have observed thus white with  
 fruit & seeds intact & in every Swamp  
 I have visited. Do all the others  
 die down & disappear?

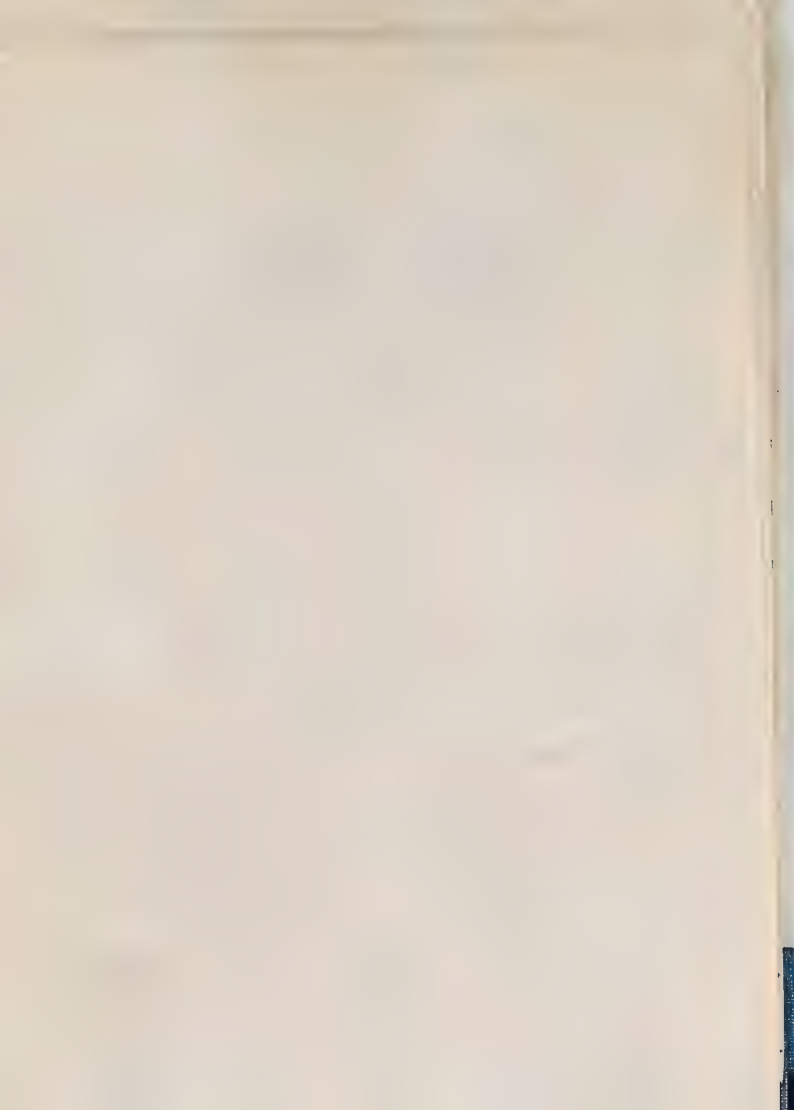

Feb 20 Blizzard. Dense drifting

snow, high winds all day - all

traffic. Truly, R.C.O.R.R. - had up

12 inches snow, more in 20

years. First snow this winter

Wed. 6. 1924. W. Hempstead.

23

Temp 54°

W. Hempstead Temp 63°  
with Specter Hempstead Pa.

Wed. 7. Temp 64°

7 Robins seen by Edith Lane  
& by myself in Garden City.

Brilliant green sprouts of grass appearing.

Wed. 12. West end Hempstead Pa.

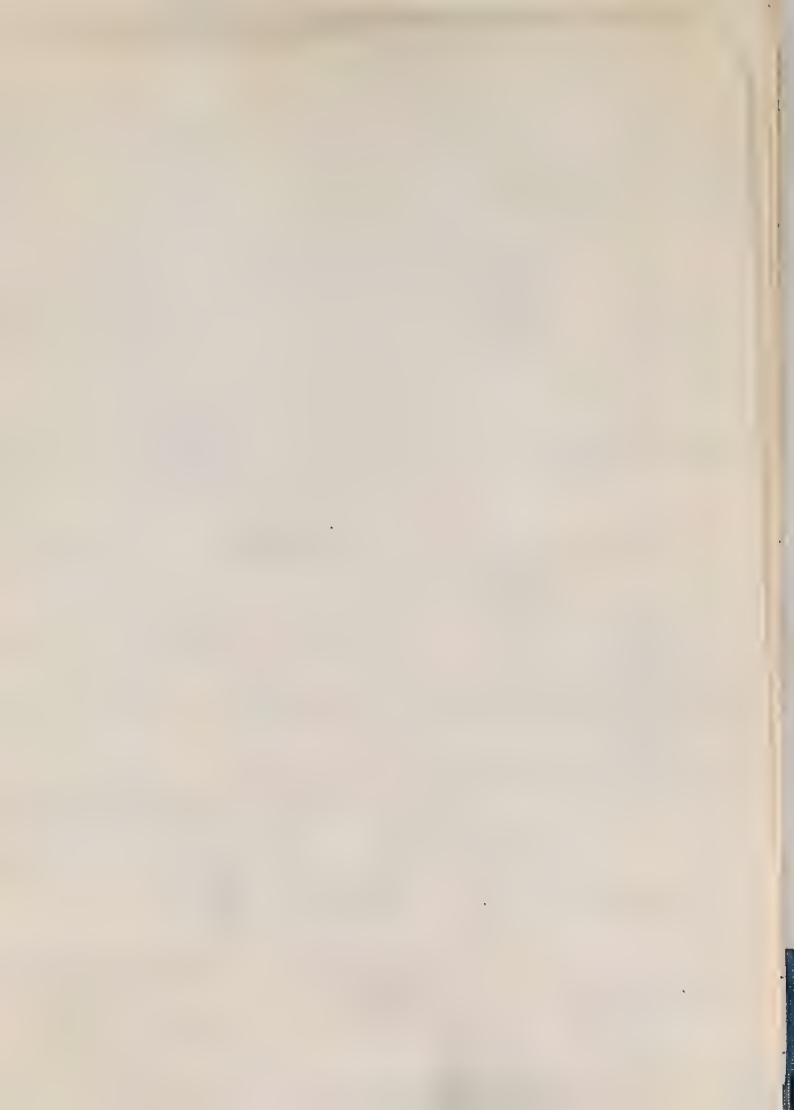

SKunk - cabbage in flower - Some leaves  
(folded up) 6 to 7 inches long.

Calluna on alders & white-birch.

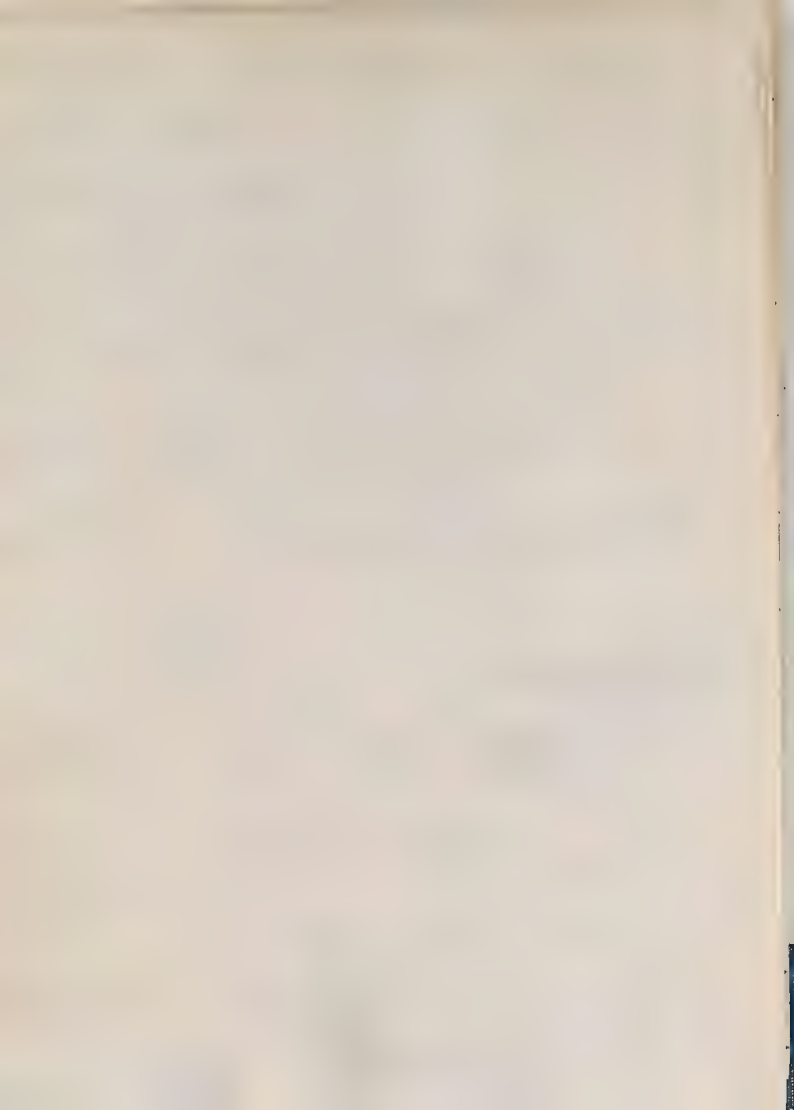

Elder buds some open.

Silver maple has been in flower some  
days. Very many first new leaves  
of different plants now to be seen on  
the ground - Grass in places bright  
green for the first time.

Sun this morning - Robins. Quail.  
Blue-birds - Red-wing Black-bird  
Wren - sparrow. Swamp sparrow in distant  
marsh etc. Elm & alder in flower.

Mar. 20. 1921

25

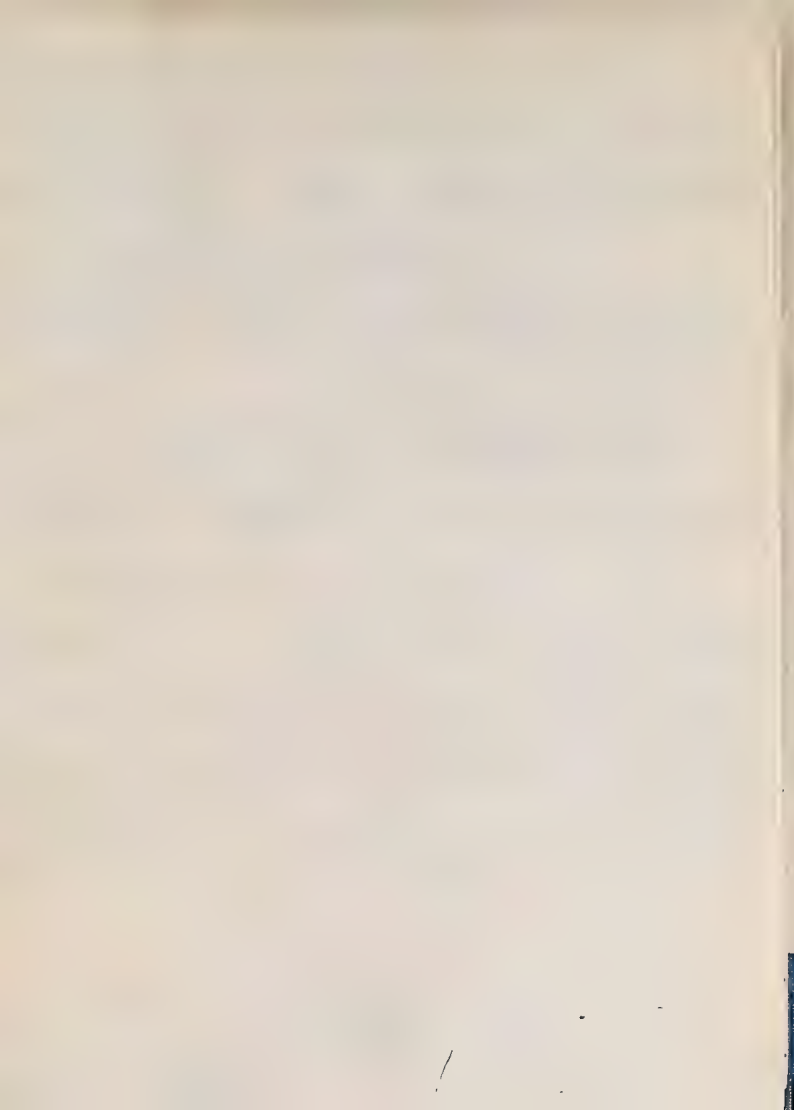

Clear Temp 72° in shade

Mar. 21 Temp 80° in shade  
Silver maple flowers now fallen  
Sycamore maples & Elm in full  
flower - All lawn and many  
dandelions in flower.

Weeping willows with young leaves  
out. Sweet in flower in garden.  
Mosquitoes in the house this evening!

Mar. 22 Temp 7 A.M. 34° Mosquitoes  
in house this evening.

Mar. 24 - 1st. Temp 60° in shade  
Poplar dandelions in flower. Marigolds  
Blossoming. Mosquitoes in house & garden.

McL 26-1921 About Plots date. 26
